Dear Parents,

Setting-up Parent WeChat Groups

1. Setting-up Communication Group for Each Level

To strengthen the communication between parents and school, PTA will keep on setting up a Parent WeChat group for each level this year. It allows parents to receive urgent messages and important information from the school or PTA. The WeChat group is designed to remind important information in a focused and warm manner. Parents still need to read the school circulars and related information carefully. If you want to express your opinions on class affairs or subject affairs, please contact relevant teacher during office hours and the teacher will reply as soon as possible by phone or via the student's homework.

Parents please make good use of this contact system. DO NOT disseminate any image or texts including indecent contents, personal offensive and insulting remarks, information about promoting Hong Kong independence, expressing hatred and violence, endangering natural security or spam messages irrelevant to PTA or schools. (If you want to share the messages irrelevant to the school, consider sharing it by private message.) If the above rules are violated by any parent, the administrator has the right to revoke/block his / her / their account(s).

WeChat groups at all levels are co-administered by two parent committee members, the arrangement is as follows:

Level	Responsible member
P1, P.2 & P3	Ms. Zeng Shifen & Ms. DAI Bijin
P.4, P.5 & P6	Ms. HUANG Jianqing & Ms. SU Wending

Parents have the choice to participate in the WeChat group. Only **ONE** parent of each student can join the group. If parents have special needs, they can contact the class teacher so that the school can understand the situation and make relevant arrangements. If parents have children studying at other levels, they must be registered in groups of different levels. Parents need to indicate the class, the name of the student and the relationship (e.g. father, mother, guardian, etc.) with the student when entering the group, so that the administrator can identify the identity of the parent (e.g. 1A Chan Siu Ming's mother).

Joining the WeChat Group:

Old Students :

The school has upgraded the WeChat Group of each level. Parents are requested to change the class within the existing group to continue using it.
